## **REPS charge to appear on bills beginning February '09**

---

Beginning in February 2009, you will see a new line on your bill representing money CCEC is required to spend to meet mandates of the state's Renewable Energy and Energy Efficiency Portfolio Standard (REPS). This amount will appear as the Renewable & EE Mandate on your bill every month.

The law, adopted in August 2007, requires cooperatives to meet up to 10% of their energy sales through renewable energy resources or energy efficiency measures by 2018.

<b>Renewable Energy &amp; Energy Efficiency Timeline</b>	
2012	3 percent
2015	6 percent
2018	10 percent

The fixed monthly charge applies to all cooperative members on a per meter basis to recover costs associated with meeting the REPS, up to the cap. CCEC has adopted the rate schedule below to meet the standard.

<b>Renewable &amp; Energy Efficiency Monthly Charge</b>	
Residential	\$0.31
Commercial	\$1.54
